```java
package exceptionhandeling;

public class ExceptionH{

        public static void main(String args[]){

         try{

            //code that may raise exception

            int data=100/0;

         }catch(ArithmeticException e){System.out.println(e);}

         //rest code of the program

         System.out.println("rest of the code...");

          }

         }
```
