```java
package ImpThread;

 class Test extends Thread{

        public void run() {

                System.out.println("thread task");

        }

}

public class Thread1 {

        public static void main(String[] args) {

                Test t = new Test();

                t.start();

        }

}
```
